LIVE. LIFE. OUTSIDE.

Because we believe that there is nothing to compare with the appearance of wood's natural grain, we've spent years perfecting an outdoor alternative that's just as attractive as the real thing, without the flaws of natural products.

Within these pages, you're invited to discover the Millboard collection in all its glory, from our stunning weathered creations that capture the character of hundred-year-old oak, to a contemporary design, coastal-inspired looks and beyond.

Plus you'll also find outdoor inspiration to help you enjoy your space in style all year round.

Take a look inside and get inspired.

We Are Millboard

4

Millboard_UK

DESIGNED IN BRITAIN. MADE IN BRITAIN.

5

The distinctive look of Millboard takes skill, impeccable attention to detail and patience to achieve.

The journey begins with real timber, which we source from the local area and carefully select by hand, paying particular attention to the subtle nuances of the natural grain.

These timbers are then used to create the moulds for Millboard, enabling us to replicate the natural character of the original wood in our unique composite material.

Now our team of craftsmen can get to work transforming the raw Millboard into the designs for our collections.

To recreate the authentic look of hardwood, we carefully match the colour, using multiple tinted hues for depth and subtle variation, ageing and weathering. The beautiful, finished Millboard is just like the real thing, but made to last for years to come.

THE WORLD'S ONLY CARBON VERIFIED PREMIUM WOOD-FREE OUTDOOR FLOORING*

6

*No trees were harmed in the manufacturing of Millboard.

1.31kg /CO₂e per m²

When you install Millboard, it's not just a beautiful outdoor space you are investing in, you are also investing in a low carbon material. Millboard is focused on continued sustainability and we have become the first premium outdoor flooring company in the world to have our carbon footprint independently verified.

We set out to replicate the beauty of wood and natural timber without all the flaws of a natural product and by doing so, we have produced a premium wood-free outdoor flooring board which is manufactured using the least amount energy and carbons possible - leaving wood where it should be, growing gracefully in the ground just as nature intended.

For full details of our carbon credentials please visit millboard.co.uk/our-vision

WHAT IS MILLBOARD?

Millboard® combines the natural beauty of real timber with the high performance of our unique wood-free material.

7

Where even the highest quality hardwood can warp, fade and quickly lose its original appeal, Millboard is crafted using a composite, designed for outdoor conditions. Made from Lastane®, the textured top surface creates a resilient, virtually maintenance-free layer, designed to resist algae and prevent slipping, even in wet conditions.

Beneath this durable top layer lies a wood-free polymer resin core, reinforced with fibre for extra strength and durability, which means that it won't expand or contract, warp or rot, like timber or composites made using wood. And because Millboard is made in Britain using innovative techniques, it's also eco-friendly too.

The Millboard

The Collection

MILLBOARD ENHANCED GRAIN

Moulded from planed timber for a textured slip resistant look and feel, our Enhanced Grain collection's contemporary design accurately recreates the subtle nuances of natural wood. Each of the six colours showcases the grain beautifully.

Board size: 176 x 3600 x 32mm

Available in six colours, refer to swatch

The Collection

MILLBOARD WEATHERED OAK

Beautifully aged yet utterly timeless, our handcrafted Weathered Oak collection is moulded from 100-year-old reclaimed weathered oak timber, creating a distinctive worn look – without the wait.

Board size: 200 x 3200 x 32mm

Available in three colours, refer to swatch

Collection

The Collection

MILLBOARD LASTA GRIP

Our Lasta-Grip® collection's textured design offers a high anti-slip rating without the rough feel of other gritted strip boards. Offering safety first, Lasta-Grip® is high grip without the rip.

Perfect for public spaces, by the pool, play areas and anywhere there's rain or water.

Board size: 200 x 3600 x 32mm
Available in two colours, refer to swatch

IT'S MORE THAN JUST A BOARD.

Introducing Millboards complete decking solution.

Our unique, hidden composite decking fixings make Millboard installation simple and preserve its unique difference to all conventional composite decking. The ideal companion for our all-weather flooring is Plas-Pro, a durable, hard-wearing and practical sub-frame material for spaces exposed to damp. Our adjustable pedestal supports are ideal for podium decks and terraces. Their smart design allows pipe work and services to be laid beneath Millboard composite decking, while also improving breathability and preventing rot.

Essential Finishing Touches

TOUCH-UP COATING RANGE

Touch-Up Coating is perfect for blending in exposed cut ends and is available in eight colours to match your Millboard. It is not a substitute for Millboard Edging. Supplied in 500ml tins.

 These swatches are representative only.

Essential Information

COLOUR TONE VARIANCE

To recreate the aesthetics of natural products, we intentionally add secondary toning colours. There may be variance within the same board or from board to board in colour tone. This means that samples cut from boards may vary from the general colour of the boarding.

With our range of colours, you can choose what is best for you. As with all products, the darker colours will feel warmer in sunny exposed locations. The lighter colours are normally used in such locations.

Whilst every care is taken to ensure consistency some colour variation from batch to batch may occur. To avoid this, we recommend that you order all you need in one delivery. If you do have different batches it is best to mix the batches to blend the colours.

As with all things constantly exposed to UV and weather stability, colours will tone slightly in time, this is normal for decking. On delivery if you find the colour unacceptable or believe them to be defective in any way, do not install the boards.

Colour tone may vary
from batch to batch

Essential SUBFRAME AND SUPPORT

The ideal companion for our all-weather flooring, and a durable and practical solution for spaces exposed to damp, such as jetties, fishing platforms, pools, roof terraces and boardwalks. View our 'How to' videos on millboard.co.uk/how-to-videos

Self-levelling pedestal

MILLBOARD PLAS-PRO

Plas-Pro is made from 100% recycled plastic. Using selected graded materials and cleverly engineered processes, Plas-Pro not only brings the key environmental benefits, but the assurance of superior quality performance.

Being impervious to water ingress Plas-Pro like Millboard will not rot, swell or split like wood, making it particularly suitable around water and damp environments ensuring a maintenance-free solution.

Plas-Pro offers many longer term advantages above traditional construction materials such as timber. Designed for the discerning specifier and client looking for durable and cost effective lasting solutions.

Plas-Pro complements our terrace pedestal products and the unique Millboard outdoor flooring range, enabling us to offer a complete, full turn-key, non-rot outdoor flooring system.

PEDESTALS

Our adjustable self-levelling pedestals are ideal for podium decks and terraces. The 'self-levelling' head ensures easier, faster and more stable installations. Their smart design allows pipe work and services to be laid beneath Millboard, while also improving breathability and reducing rot which can occur to roof timbers or a timber sub structure. The weight of the joist is spread evenly, creating a sturdy support, and reducing pressure on the membrane. They're available in five adjustable sizes, giving a complete height range from 40-210mm. A 100mm Extension Collar provides for greater heights.

Floating Head Adjustable	Height	Code
	40-56mm	PPA056
	50-70mm	PPA070
	70-110mm	PPA110
	110-160mm	PPA160
	150-210mm	PPA210
Extension Collar	100mm	PPC100

Essential FIXTURES AND FITTINGS

Complete your Millboard outdoor space with essential fixtures and fittings to ensure the perfect fit and performance for years to come. View our 'How to' videos on millboard.co.uk/how-to-videos

Going, Go

DURAFIX® FIXINGS

Our unique Durafix®, hidden decking fixings make installing Millboard simple. Made specifically for Millboard, there's no pre-drilling, counter sinking or clip fixings needed – all you need to do is screw them in. Once they're in, the Lastane® coating material on every Millboard simply flexes back over the fixing, leaving a virtually indistinguishable mark and creating a cleaner finish. Made from stainless steel, the screws have a six-point Torx head and are waxed for ease of use. And the driver bits are even included in the box.

The Installation

INSTALLING YOUR OWN DECK

Preparation is key, so now you have chosen your Millboard, it's time to transform your outdoor space into a fantastic area to relax or entertain your friends and family. To ensure a perfect installation, visit our online resource centre and download our installation guidelines. For hints and tips on how to prepare and install your own beautiful Millboard outdoor area, take a look at our 'How to' videos at millboard.co.uk/how-to-videos

The Installation

GET AN APPROVED INSTALLER

Looking for an APPROVED Installer? Millboard have a growing national team of professional, trained and qualified APPROVED Installers. Simply visit millboard.co.uk/locator, type in your postcode and contact one of our APPROVED Installers, safe in the knowledge that they have the competency, training and installation skills required to meet your requirements and install your Millboard.

QUESTIONS AND ANSWERS

WHERE CAN I USE MILLBOARD?

Millboard is extremely versatile and can be used in practically every outdoor space. Create decks, balconies, roof gardens, boardwalks, bridges, pontoons, seating, steps, planters and more.

DO I NEED TO SEAL MILLBOARD?

No, all Millboards are surface sealed in the factory to ensure they arrive in premium condition. In the first few weeks of use, rainwater will sit on the surface in globules, but don't worry – this is normal and will stop once the temporary surface seal breaks down.

DOES MILLBOARD MARK?

The Lastane® finish is highly resistant to scratches and food and drink stains, and everyday wear and tear. Sharp objects such as unprotected table or chair legs, spiked shoes or metal planter bases can leave marks if dragged across the surface, so take care when moving these items around. The risk of marking from strong dyes and stains such as berries and animal droppings will be reduced if removed as soon as possible.

HOW DO I CLEAN MILLBOARD?

Because Millboard is made of non-porous composite, it resists mossy build-up and stains, so needs very little maintenance. To remove spills and marks, simply use a mild detergent and a brush. Just steer clear of solvents, chemicals and abrasive cleaners that could damage your Millboard – and there's normally no need for pressure washing.

IS MILLBOARD ANTI-SLIP?

Yes, in BS79.76 slip resistance tests, all styles of Millboard achieve one of the highest anti-slip ratings, even in wet conditions.

CAN YOU RECOMMEND AN INSTALLER?

A nationwide network of APPROVED Installers are available at www.millboard.co.uk. Chosen for their professionalism and high quality, you should always follow normal precautions before entering into a contract with a third party, especially if a deposit payment is required.

ARE MILLBOARD COLOURS CONSISTENT?

As with all flooring, we advise buying all the Millboard you need at the same time to help ensure that the colour is as consistent as possible. If you don't order all your Millboard at once, you can blend different batches to create only subtle variation throughout your space.

CAN MILLBOARD BE CUT JUST LIKE WOOD?

Millboard can be cut with standard saw blades, although we recommend a carbon-tipped, multi-purpose chop saw. As the formed end of the board is lost when cut, these can be placed in less visual areas against a wall or edging profile. Matching Touch-up Coating for exposed ends is available to buy separately. See page 31.

WHAT FIXINGS SHOULD BE USED TO FIX MILLBOARD?

Following extensive trials, we recommend and supply Durafix® stainless steel screws, designed specifically for Millboard. There's no need to pre-drill or countersink Millboard and the unique Lastane® material self-heals, leaving a virtually indistinguishable mark on the surface. See pages 37 and 38.

WHAT IF IT SNOWS OR IS ICY?

A small amount of granulated white salt can be used to keep your Millboard ice-free. Please don't use rock salt, as this contains clay and grit and can be abrasive. When winter's over, clean the surface with soapy water and a soft broom.

DOES MILLBOARD GET HOT IN THE SUN?

CAUTION – In high temperatures or prolonged bright sunlight Millboard can become hot. Please exercise caution before walking barefoot on to Millboard in circumstances where the Millboard is in high temperatures and exposed to sunlight. In these circumstances, it may be necessary to use footwear. You should not use Millboard in areas that are affected by heat reflective glass.

DOES MILLBOARD COME WITH A WARRANTY?
