4 GAME CHANGERS

INNOVATION IS OUR PASSION

It drives us to keep improving our products and find new solutions that put us one step ahead.

1. INVISIBLE PROFILE

Who prefers open gaps vs invisible gaps?

Who prefers to see the understructure?

Who prefers to get heels stuck in between boards?

Our patented invisible profile is an absolute winner and it just looks so much better.

A SUBTLE DIFFERENCE WHICH MAKES A BIG DIFFERENCE

2. 100% ACCESSIBLE

Total access for decks, walls and ceilings.

We have created the most flexible system enabling you to have access anytime, anywhere with our Magnet Tool.

Made a mistake? No problem, open and redo again.

EMBRACE FLEXIBILITY AS ONE OF YOUR BEST ALLIES

3. NO SCREWS

Who likes screws, screw drivers and the whole noise that comes with it?

We are in 2022, and the way to go is No Screws.

A smart fixing method which has been acknowledged by the industry as the best system available.

Our mechanical locking is strong but yet flexible. It will always allow us to go back.

MAINTENANCE FRIENDLY AND VERY GENTLE FOR THE USER

4. ALUMINUM JOISTS

Choosing the right substructure is choosing the right foundation.

You would not build your own home in a mud foundation, right?

Then please do not choose soft wood or plastic joists to build your deck.

Aluminum is the best choice and you would love working with it.

STRAIGHT LIKE AN ARROW AND STABLE AS A ROCK

1.1 HYGIENIC

Food & leaves can't fall down

1.2 NO LO\$\$ OF VALUABLES

Don't lose your mobile.
Don't lose your coins.
Don't lose your ring...

1.3 SAFER

Dress to impress!

Patented invisible profile system
with 4mm spacing for optimal drainage and ventilation

Who prefers to have gaps between boards
when it can look like this? Smart!

1.4 BETTER LOOK

No gaps & no understructure to be seen

PATENTED

screwless installation

An advanced mechanical locking with superior grip which holds boards stronger than a screw but yet flexible to open up and close again when necessary.

the magnet®

Easy → No screws
Fast → No predrilling
Silent → No tools
Cost-Efficient

8

100% accessible

Total access for decks, walls and ceilings

Flexibility as your best ally

Maintenance friendly

Easy substitution of boards

9

PATENTED

A solid rock substructure

Improved loading capacity to more than 4.000kgs per sqm.
Superior mechanical properties to hold clips.
Upgraded stability: will remain straight, it won't warp nor decay.
Enlarged service life 25 years warranty for aluminum joists.
Save costs and time by using less pedestals.
Fixed lengths of 2.200mm.

COMPLETE SOLUTIONS

Our **double joist** is the crucial point, on which all the beginnings and ends of boards must rest.

Our **double joist** is essential for the correct installation of the product, leaving 4mm of expansion space between the boards of Tech WPC products.

Build it with a lifetime foundation

aluminum joists

Our entry-level category is **reliable, durable,**
elegant and suitable for **private** and **public spaces**

Tech Cube is the first combo WPC board designed to fit 3 different installations systems

1 Magnet Clip

Improve it
by making
it accessible
with the
Magnet system.

2 SpeedClip

No screws.
Patented.
Gain in
installation speed
with SpeedClip.

3 Screwdown clip

Remain conservative
(not encouraged
by Exterpark)
and use screw
down clip.

Tech Cube is the only WPC board to combine 3 patented technologies in one deck system
